Personally, as a fan of the game S.T.A.L.K.E.R., I didnâ€™t want to kill anything, especially after I was offered to go through the line in order to get the long-awaited key. But since they did, I agreed. Other bonuses are fine too. Only the level of the character is missing: the "wise guy" from the stalker cannot choose levels. But there is a funny accessory - a device that can close a hole in the floor. The plot here is just 7 points. I liked the idea of â€œdoing it. The plot of the game is a set of quests, moderately heavy, in a solid form. Regular tasks are simply cut from the game, but there are also quite tenacious ones. There are more quests in the game than we would like, but not all of them have the same levels. In addition, some belong to the genre of quests - zombie horror. All this creates a unique gameplay, seasoned with a fair amount of humor. As for the game play time. The most important thing here is not to be afraid. The first impression of the game is easy, besides, very little time

has passed. Quests are easy to pass, individual episodes take very little time. However, I really like the difficulty levels. There are many of them - it took me about a month to upgrade the Stalker to more or less the best. Therefore, I can't complain about the failed moments of the game and the plot either. Unfortunately, I don't have any screenshots from the game. I went to the store - I did not find it on the Internet either. P.S. But if you want, you can play Stalker ZP on your computer, below are screenshots from the game: On my own, I can add that the game is worth buying for those who appreciate the horror and action genre. The graphics and storyline of the game are worth the wait. You can go through a mission that seems long, but there will be nothing behind it that you want to discard and go through the quest again. And the ending of the game leaves a pleasant impression. I got my dose of adrenaline that I always dreamed of. And this is another confirmation that the developers are still trying. Well, in general, I liked the game. Good atmosphere, fun and interesting adventure game. And for those who can't stand fantasy worlds and adventures, this is a fun game
