VidJuice UniTube is a program that enables the users to download videos from the Internet and convert them into different media formats. As soon as the user enters the URL of the video that he wants to download, the software immediately starts downloading the file from the server and compresses the file into various media formats (MP3, MP4, FLV, MOV or M4A). Once the process is finished, the user can easily access and play the downloaded file from his computer. The app also allows one to create playlists and download only the desired tracks from online streams. Views: 15 Date Added: 10/06/2018 5 Chromecast is one of the best ways to enjoy online videos. There are many Chromecast apps available in the market, but the ones that were recently

launched were not the best ones to use. That is why we want to present you five Chromecast apps that are widely used nowadays and which you can try to download and use in order to enjoy your favorite online videos. With the expansion of streaming services, the range of available online videos increases on a daily basis. In this way, you might have noticed that you can no longer get all of them on your phone or computer. By this, we mean that you get enough access to decent quality files, such as HD TV shows or movies, only to watch them in high-quality streaming apps. With that being said, you might be interested in enjoying online videos on your TV screen. In order to do that, you can use your Chromecast device; it is one of the best ways to get access to web video content from Netflix, HBO Now, and Hulu. In this way, you can also use Chromecast to play audio on a compatible speaker and to

stream audio from Spotify, Pandora or more. The mentioned Chromecast apps will work with the wide variety of smartphones and tablets, therefore, all you need to do is to download them, install them on your device, and you will be ready to enjoy your favorite online videos on your TV screen. Chromecast Remote Chromecast Remote is the only app that allows you to interact with your Chromecast device, right from your Android or iOS smartphone or tablet. What that means is that this app allows you to control everything, such as turning your Chromecast on or off, as well as to change the volume and to initiate media playback. The app also offers a solid equalizer, so that you can manage
