SyncThru Web Admin Service For SCX-5835FN Incl Product Key PC/Windows

Powered by Web Server software, SCX-5835FN can access the online configuration for this product as well as product updates, driver downloads, and warranty information. SmartConnect can be used as a remote service to establish a peer-to-peer connection between multiple Smart Devices on the network. The SCX-5835FN supports the connectivity services included in SmartConnect 2.0. The remote database includes the following detailed information on available devices: serial number, manufacturer, model, and firmware version; physical location and status, including operating system version, network support, and Bluetooth support; available device drivers; and available network connections. The user can also discover devices through the network by connecting the SCX-5835FN to the network. SmartDevice Manager (SDM) provides users the ability to manage devices on a network through the Internet. It provides two method of configuration: The AEM® Mode provides a thin client interface that features a user-friendly Web Client. AEM Mode Web Client has extensive functions, including device discovery, device control, and management of the maintenance, the operating system, or of the network. The AEM Mode includes several powerful customization features such as AEM Mode Banner Display option, Device Mappings, device configuration, device error report, and searchable database of registered devices. SCX-5835FN Help The Samsung SyncThru Web Admin Service for SCX-5835FN is a SCX-5835FN management service. The service allows you to configure and manage the SCX-5835FN device by accessing its configuration from a user-friendly Web Client. The SCX-5835FN supports the communication services (e.g., remote service, device discovery, maintenance, operating system, and network connection) included in SmartConnect 2.0. The SCX-5835FN Web Client includes two configuration pages: the Device Configuration page and the AEM Mode Web Client page. Setup the Samsung SyncThru Web Admin Service for SCX-5835FN as the following: Select Setup. Select the Service type (e.g., Device). Select the Communication Service to which the SCX-5835FN is connected. If the SCX-5835FN is connected to a remote service, connect the local communication service to the device. Select the Device type. Enter a name of the device, e.g., TRUST.
