## OctopusCity Crack+

OctopusCity is the only FREE downloadable contact manager. It is an add-on for Outlook, Gmail, Yahoo, and many other mail programs, and a full-featured program on its own. It lets you get things done, getting your important communications organized in one place, and remembering who sent you what when. Features include:

- Contacts, notes, to-do lists, calendar, task list, and group collaboration for projects.
- Full synchronization with Outlook, Gmail, Yahoo, and many other software applications.
- Download version with online account and update to add free email service and online syncing.
- Add multiple contacts from multiple addresses for large networks.
- Call option with verification of caller ID.
- Free synchronization with multiple email servers so you can be in multiple places with your contacts.
- Organize contacts in customizable groupings or as subgroups; enter notes for all contacts in same spot.
- Automatic auto-expansion so you can see all people/contacts and do more with fewer clicks.
- Intuitive design and easy navigation, just like a full-featured desktop program.
- Fully programmable for custom users.

Get started with easy downloads! Get your free Web Account from OctopusCity now!
