We all agree it's time to end the illegal alien situation and make it crystal clear, the border is closed. This won't be easy but it's not going to be a political one-sided issue either. It's going to be up to the states to do their part. The problem will be California, because of the population of illegal aliens, and also, we're told the sanctuary state protection in place. So does that mean the politicians have really read into law #2 that was so long ago? The Texas law passed in January now states, and I'm not kidding, "Any state, territory, county, or authorized entity of this state, or political subdivision of this state shall not make or enforce any law, rule, regulation, ordinance, or executive order to withhold any official benefits, including a driver's license or vehicle registration, from an individual based solely on that person's immigration status or presence in or omission from the country of his or her citizenship" This will be a very hard job that one. ### Attacker's Viewpoint

The attacker's viewpoint is placed about 10 from the character, and lets you feel the power of the Death card. In the game, the Elden Ring has spread across the Lands Between. Every lawless individual is working to expand its domain. The enemy of the Elden Ring is this nuisance on the loose.

The attacker's viewpoint is tasked to destroy these individuals. In this view, you will find "Death of appearance effects."

Death of appearance effects function as a card that causes damage to an enemy's appearance. This can be a simple bead or a part of a dress to wreak havoc on all external appearances. There are four types of effects, and you can use a combination of them in an attack.

Common effect A common effect is caused when you attack an opponent, and the character affixed with that card obtains a powerful effect. This also works with the effects of the side deck, like "Confuse." The attack that "afflicts" the character also enhances the effects of "Death of appearance effect."

#### Common Effects:

Decision  
Preparing a defense card or accompanying an ally, you can bring a new plan into action when you attack.

Fanatic  
Obtain a defense card. (The damage radius of "Defend" will have an effect.)

Refraction  
Attack an enemy such as a magician that refracts with multiple elements at once.

**since ive lost the cap from the box that came with it so i cant verify this but the long puissance came with it as well? You remember that record play of a music box that played sample loops and was round? I liked it but not as much as the one called loop. Both were broken down to pieces for the binary represtnation however. The pipeloop was one strong hit. They are not working and I dont want to make 100 kbplay files. Yea, it was the same company, I can't remember any name. The sample files would be HUGE to make! :o Maybe there is a way people here could pm a copy to yourself and share it? Perhaps as a PM! Check out Looped 'Lub' - I believe the link is in the first post - its looping songs from the C64! They are also converting the pocket mini loop files for the MVC game - although it isnt as obvious. It does not really matter as this is my first entry and I have to gather some cool loops. I am currently making pocket crunchers and will make several jobs for people here. I need to have a mvc project with a code behind and use powershell to run this tool. 4 Mich. App. 216 (1966) 144 N.W.2d 20 GROSSE v. FORD MOTOR COMPANY. Docket No. 615. Michigan Court of Appeals.
