The Elder Scrolls V: Skyrim is a single player open world fantasy role-playing video game, developed by Bethesda Game Studios, and published by Bethesda Softworks. It is the fifth installment in The Elder Scrolls series, following The Elder Scrolls IV: Oblivion, and the first game to be developed by Bethesda Game Studios since the release of The Elder Scrolls III: Morrowind in 2002. Set in the Cyrodiil region of Skyrim, the player assumes the role of either a Dragonborn, one of the legendary heroes that protect Skyrim from monsters known as the Daedra, or one of the thieves, warriors, or otherwise unofficial representatives of the nine families that are vying for control of this territory. The original title for the game was Project: Phoenix, with the working title of Dragonborn until its official announcement in November 2008. The game was designed to function as a direct sequel to The Elder Scrolls IV: Oblivion and was officially unveiled at the 2009 E3 convention. Skyrim was released in North America on November 17, 2011 and in Europe on November 19, 2011 for Microsoft Windows, PlayStation 3, and Xbox 360.

A new model of esophageal replacement with microvascular free-tissue transfer. The operative reconstruction of the esophagus after ablative esophageal cancer therapy has been a challenge for the reconstructive surgeon. We report a new method of using microvascular free-tissue transfer to reconstruct the esophagus. Two patients underwent a total esophagectomy and reconstruction with a newly designed microvascular free-tissue transfer flap. The mean operating time was 10 h and the mean blood loss was about 1000 ml. In the first patient, who had undergone subtotal esophagectomy and dissection of the recurrent laryngeal nerve, an 8.5 x 8 x 3 cm tubular structure consisting of the anterolateral thigh (ALT) and vastus lateralis (VL) muscles, with a branch to the external oblique aponeurosis and the pelvic fascial planes, was harvested. In the second patient, who underwent total esophagectomy and laryngectomy, an 8 x 6 x 2 cm pedicle VL flap was harvested. Both flaps survived after local and systemic management, and the patients recovered well after surgery. Based on our clinical experience, the tubular flap design for esophageal reconstruction is a new technique that requires a few basic components, is not technically demanding, and can be performed with a simple but

An Introduction to Final Fantasy

Jump back in time hundreds of years ago. There were once people living on the surface of the world. If you want to know about the people who lived back then, please look up 10,000 Words. This is a mythical author. KPPJ's origin goes like this.

He is an author of short stories, but he is also known as the uneducated man who simply

"Each of the worlds in Elden Ring is a fascinating and beautiful world. They're all amazing. I'm thinking that maybe there will be a festival or maybe an event once a year to go out and see each of these beautiful worlds in person." - Kotaku "You can feel this is a game that takes its cues from the JRPG genre of game development. As such, you are given a huge variety of content, and thus, very much worth your time." - PlayStation LifeStyleDuke may find it tougher going into Big South Championship From this point on, the post-season is on the court. Team USA was limited to five players and has to be careful not to put too much pressure on any one player. So the big question is, who's going to be the best point guard in the nation, and is it going to be Florida's Chris Lofton or Duke's LaMarcus Aldridge? Duke senior guard LaMarcus Aldridge (15 points, 12 rebounds) and Florida freshman guard Chris Lofton (18 points, 7 rebounds, 8 assists) scored 17 of Florida's 33 points in the second half against Florida State in last season's NCAA title game to help the Gators rally from a first-half deficit to a 93-87 victory at the Convocation Center in Tampa, Fla. Based on that performance and the way the teams split the season series between the two teams that reached the Final Four, it should be clear that the two will be the top scoring guards in the nation. Florida senior forward Al Horford (17 points, 6 rebounds, 7 assists) brought back the memories of a guy named David Robinson from his first coaching stint as Blue Devil head coach Danny Manning. Robinson, a 6-11, 270-pounder, won three consecutive Big East titles at Providence and transformed the Friars into a national championship-level team. During the 1989-90 season, Manning brought Robinson back to the Friars as an assistant, and in his first five games, the Friars won four games. Robinson then went on to lead his team to three NCAA Tournament victories and a victory over the Washington Bullets in the 1990 NBA Eastern Conference finals. The last five games of the 1989-90 season were played in the last four days, and on Feb. 12, 1990, the Friars lost their first game in 26 attempts when Robinson was ejected in the second quarter. Before Saturday's game, Manning said the
