Let me introduce myself. I'm a 26 year old man and addicted to the games. I like to play games. This game released today, and I'm the first to get the opportunity to play the game. So I'm gonna play the game until the game ended. I'm very excited. I don't want to hurt.._o_O But before that, let me tell you how I got to try the game. I had the chance to watch a livestream yesterday. I thought that the game would be as boring as usual, so I skipped it, but it didn't turn out like that. I didn't watch the whole presentation because I was tired, and I went to bed right after it. It was around 3 AM, and I could only force myself to stay awake until 4 AM. I was tired. So this morning I woke up and watched it again. According to what I watched, the game is about to be released tomorrow. So I just played the game. Well, it seems that the game is not as boring as I thought, because it was amazing. You can play this game, Tarnished, on PC. I played this game on both PC and Mac. The game is divided into four different adventure maps: 'Noid, Naraka, Carceris, and Lands Between. I didn't go into detail about each map, but I'll explain a bit about the Lands Between. The Lands Between is a kind of free-roaming map. You can explore the world, and pretty much do whatever you want. You can go to the village, pick flowers, search for chests, and generally enjoy yourself. Some of the scenes that I liked from the Lands Between. I saw the other parts too, but I'm too tired to mention them. As I watched bff6bb2d33
