What's new:

- **Play the way you want!** Dive into the World Cup for the first time with a whole new Stadium Editor - hundreds of thousands of plastic stadium seats, dugouts and commentator booths that can be tailored to your real-life needs. See how your stadium is designed from every angle and even play the match with different people like your friends in the Virtual Stompbox.
- **Shape your gameplay with Online Seasons.** Create your own Ultimate Team, play Private Matches against your friends, and earn rewards as you climb the leaderboards. Play in almost any mode, with no code required - the dedicated players can also start the season with a new full club, or choose from the UEFA.com rankings.
- **PES Managing Director Gianluca Di Marzio and EA SPORTS Technical Director Philippe Roux have created an all-new "Motion Intelligence" engine, and tuned it to get the ball instantly rolling when sprinting down the field. They've teamed up with gaming experts at The Creative Assembly to develop the "HyperMotion Engine," which gives you the most realistic-feeling first person shooter experience ever. The HyperMotion Engine not only delivers astonishing lifelike foot motion, it's fully integrated with our new Game Changer tackles and new dribbling that ensures the most realistic ball movement in sports video games.**
- **Soccer is a game of positioning. Position triggers and set-pieces are weaponized in FIFA 22. Players now have more control of lethal head-on collisions and set-plays; giving us more immersive mid-field attacking opportunities.**
- **Improve your defending. In FIFA 22 we are introducing a brand new tactical strapping system which makes it easier to train and practice commanding last man blocks, and defending during set-pieces.**
- **FIFA Content and Team updates were also unveiled.**
