ImageExpo X64

Save time and hassle by letting your phone screen appear on any TV or projector. If you want to display your own photos, videos, slideshows, presentations or games in full screen on your TV, ImageExpo for Android enables you to easily control your smartphone for your PC via Bluetooth, WLAN or USB connection, as well as view and control what is being displayed on your smartphone. The application is simply designed, easy to use and compatible with most Smartphones (which have a camera). With the product's live preview feature, you can preview what your phone will look like on your TV or projector. From there you can make changes to the image and save it. Once you are happy with the image, you can then upload to your TV or projector to display full screen. You can use "slide to view" to navigate between your pictures in order to display the first one, the last one, the most recently viewed, etc. Features: - Support most Android smartphones: - In this edition, we have updated the application to work with most smartphones on Android OS version 2.2 and above. - Most smartphones can be connected via WLAN, USB and Bluetooth. - Live preview. With "slide to view" you can preview what your phone's screen will look like on your TV or projector. - Upload the image to your TV or projector for full screen. - Can also display the inbuilt camera screen. - You can save your images to your phone's folder. - Two level of compression. ImageExpo is able to reduce size between 5 and 25%. - Supports Android version 2.2 and above. Package Size: 2.5Mb View PDF ImageExpo Pro helps create professional slide shows or presentations from your Android, iOS and Windows PC and tv shows using your own images from your phone. The program allows you to load, organise, share, edit and archive your movies, photos, panoramas or other images. You can save your slides to a template or directly to the media folder on your phone, and there are many built-in templates for various occasions. You can present your smartphone images on any screen, be it a TV, a projector, a computer or a projector. You can use this tool for private or business purposes, and the program is completely free of charge. You can make a presentation quickly with customized templates, set it as a slideshow, share it with your friends

ImageExpo Crack + [32|64bit]
