Phenanthridine alkaloids from *Helleborus hypochondriacus*. Fractionation of the acetone extract of *Helleborus hypochondriacus* by silica gel chromatography followed by preparative HPLC gave five phenanthridine alkaloids: hypochondriacidine (1), hypochondriadin (2), hellebochelidine (3), hypochondriainine (4), and isochelainine (5). The structures of 1-5 were determined by spectroscopic methods. The presence of a phenanthridine moiety and a 4-aminophenyl skeleton in the structures of these alkaloids was postulated on the basis of their UV absorption and MS properties.

Juvi Juvi is a city and the headquarter of Salim Sarai district in the Indian state of Bihar. It is a city in Munger Division of Eastern States of Bihar. It has population of about 220,000 people living in 12,000 households.
