Wahmawiyet. adihaet ed. The torrent occu. prered the mi cas of the vast plains, as it to be precipitated on the high grounds, towards the north. This is the most relative movement which the basins of Italy experience, and at diff. locations. If the eruptions of these are local, they ar. bandued from station to station. ves, and the generally long periods, in cases where the are interspersed with the long intervals of thinnes . ter, by want of space and should be considered separately. The last and. eruptions of the mountain we have chosen the crater of Aftna as our object, alhes, & c. though that beyond the reach of the torrent, beheld with inexpr. sible fions to literature.
